The total amount of standard silver dol-lars coined is \$42,759,550; amount on hand in the treasury offices, \$31,703,680; amount out-standing in circulation, \$11,064,070.

It is now given out that the President has intimated to Secretary Evarts that London would be a good place for him as the successor of Minister Welch.

or minuter weich.

The clerks in the treasury department have been allowed ten days' vacation, on full pay, to go home for the election.

Secretary Evarts and Gen. Sherman are back in Washington.

CRIME.

On Wednesday night the east bound Chiesgo & Alton train was stopped at Glendale, Mo., seven miles cast of Independence and the safe of the United States express company was robbed by a party of masked men numbering about eighteen or twenty. As the train drew up to the platform three or four men stood gnard over the engineer, others were stationed along the sides of the train while four or five broke spen the door of the express car. The express messenger attempted to escape, but one of the robbers struck him on the head with a revolver and told him to open the safe. The robbers pocketed its entire contents, estimated at about \$2.0,000. After breaking the telegraph instruments in the station tents, estimated at about \$2.0,000. After breaking the telegraph instruments in the station
the robbers all mounted their horses and with
a short, galloped off southeast and seon disappeared in the shadows of the heavy timber
which surrounds the place where the robbery
was committed. Upon examining the track
for a little way ahead the train men found a
large pile of big stense heaped up between
the rails, showing that if they had attempted
to run through without stopping they would
have been ditched.

have been ditched.

An Atlanta Special of the 13th says the judge of Baldwin county and a delevation of teitizens reached here this morning to ask the governor for a military force to suppress the theorem of the superate organization, who were fully described in the Herald a year ago. They hold possession of half the country and dely arrest. They killed two men Tuesday and burned several houses. They have killed in the past three years twenty men and women, mostly negroes. The governor sent his staff, and a number of detectives down, and will send the military if needed.

Two men, near Belmont, On named

will send the military if needed.

Two men, near Belmont, O., named James Powell and James Travis, while hunting, Saturday, quarteled, when Powell struck Travis three times over the head with a gun, and left him in an insensible condition. He died from his injuries. Powell was immediately put under arrest, and at a preliminary hearing was bound over to the court, and on giving bail was released. He was found hanging by the neck in his own stable next morning dead.

The Georgia senale reached a vote on atticles of imposehment against Treasurer Renfore on the three first, which were the main articles. The vote stood 25 for guilty, 17 not guilty, being less than two-thirds. The vote on the others was still more favorable for the treasurer, on the fifth and sixth getting over a majority for not guilty, thus acquitting him on every charge, and he was dismissed.

dismissed.

Peter McManus, a Mollic Magnire, is be banged Thursday, made a statement, implicating Canning and Rhosds, the principal witnesses for the commonwealth, in the murder of Heper. The statement says Rhoss-struck a fatal blow with a hammer. Rhosds was tried some years ago for the murder of Mrs. Chambeelin. Canning denies the truth of the statement.

A Umon Pacific stock car which a few A Union Pacific stock car which a few-days since bassed over one of the Eastern lines, is creating considerable talk among stock men and railroad officials who chanced to see it. The car had a water tank under it that would hold about twenty barrels of water, to which was attached a pump that was operated from the roof of the car. On the under side of the roof were two or three leaden pipes that were little less than sieves on the lower side, and when the shipper wished to water his stock, all he had to do was to climb to the roof of the car and do a little pumping, which would give the stock in the car a complete shower lath.

A report from Denver of the 8th says:

which would give the stock in the car a complete shower bath.

A report from Denver of the 8th says: The election for supreme judge and county officers passed very quietly, not more than half a vote being polled. The returns come in slowly, but the indications are that Republicans have carried the State. Ex-Gov. Routt, chairman of the Republican State committee, estimates the majority for fleck, for supreme ludge, at 5,000, a gain of 2,000 over last year's vote. In Arapaloee county the Republicans elected every man; also in Gilpin, Weld and Larsmie, in Las Animas the Democrats fall behind last year's vote 200. There was little interest in the contests, as the State ticket contained but one name, that of Beck.

Gen. Grant was heartily received by the

COMMERCIAL

Messrs. Lynde, Wright & Co., of Kansac City, furnish us the following reliable review of the grain trade for the past week:
Whend-The excitement that characterized our market for three weeks past still continues, and we have to report a still further advance for the week, of 6 to 7 cents a bushel in both spring and winter graites. Foreign markets have advanced 6 to 7 pence per cental during the same time. This steady appreciation abroad is unquestionably to a great extent forced by the tone of our markets. Here, the easy condition of the money markets and the general feeling that wheat is good property to purchase, have induced large investments in future deliveries. An advancing market realizing handsome profits to purchaseers, has given an impetus to speculation unknown for years. With public opinion set so strongly—influencing those who have more to buy and those who are are producers to hold what they have gathered—there seems to be but one side at tresent. Then the farmers' deliveries in both France and England are light, and so unsatisfactory that the greatest care in handling must be exercised for many weeks to come, before millers can use the grain.

Reserve atocks of old wheat in both countries were muiscally light at the commencement of the present crop year, and the latest Mark Lane Express places the requirements of Great Britain at 16,000,000 to 17,000,000 quarters, or 18,000,000 to 136,000,000 bushels, French authorities acknowledge their necessities to be equal to if not greater than those of last year, which amounted to 80,000,000 bushels, in round numbers. Russia's expurts for the current crop year is going to be near its minimum during the past ten years, or between 30,000,000 and 40,000,000 bushels, while the quality of its grain is much inferior to previous years. There is not a wholesome report of the late barvests from any country in Europe.

While all these arguments have been repeated from time to time, it must not be forgotten COMMERCIAL

urope. While all these arguments have been repeat while at these arguments are occurred to the forgotte that prices will not always advance. Here lation must secure its profit, and reaction will follow sudden unturns, though, event ally, the holders of American wheat will cotted the prices of the world on breadstuffs. Receipts continue liberal and show slight improvement.

cons—Active and advancing foreign ma Cons—Active and advancing foreign mar-kets have improved our own, and prices are two cents higher than a week ago. It raises itself

sir; decidedly no, sir. It raises itself. Why, if we undertook to cultivate wheat in that State it would run us out. There wouldn't be any place to put our house."

"But I've been told that grasshoppers take a good deal of it."

"Of course they do. If they didn't I don't know what we would do. The cussed stuff would run all over the State and drive us out—choke us up. Those grasshoppers are a Godsend; only there ain't half enough of 'em."

"Is that wheat nice and plump?"

"Plump! Why I don't know wait you call plump wheat, but there are seventeen in our family, including ten servants, and when we want bread we just go out and fetch in a kernal of wheat and bake it."

"Do you ever soak it in water first?"

him stay out there a few days, and then come here, and we will get him out, and he will be thankful to you for his release."
"Oh, please keep him here, and then I can come and see him and cheer him up. Let him stay here for a day or two and then let him go." The Court was immovable, however, and the little woman when lest here was inquiring whether, if Many a woman dusts billiard chalk off her husband's coat, and a big tear stands in her eye as she thinks how late he works nights at his desk by the white-washed wall.

HOUSE AND FARM.

Though Shaking Like an Aspen Leaf

Foote, the great wit, shot many an ar

Foote, the great wit, shot many an arrow that remained quivering in the wound for a long time. When some, with bad taste, raised a laugh against him on the subject of his lameness, he turned on his intruder and said sharply: "Why do you attack my weakest part? Did I ever say anything about your head?"

Merritt has been handsomely received a Bridgeport, but the great showman who ives there has not got hold of him.

Malarial Fever.

Twelve years ago Texas sold but 75,of cotton. Last year it footed up

1,000,000 bales. There never was a popular superstition nore utterly without a basis than the notion that the moon has an influence

Though Shaking Like an Aspen Leaf
With the chills and fever, the victim of malaria may still recover by saing the celebrated
specific, Hostetter's Stomach Bitters, which
not only breaks up the most aggravated attacks, but prevents their recurrence. It is infinitely preferable to quinine, not only because
it does the huainess far more thoroughly, but
also on account of its perfect wholesomeness
and invigorating action upon the entire system. Testimony is concutrent, positive and
ample showing the decisive nature of its effects, and that it is no mere pulliative. Physicians concede its excellence, and there is a
constant influx of communications from persons in every class of society avouching its
merits, and bearing witness to its superiority
over other remedies for malarial disease. It is
especially popular throughout the West, wherser fever and ague prevails, as it does in
many of the fairest and most fertile portions
of that vast region.

Foote, the great wit, shot many an ar-In bad seasons business men anxiously look for crop reports. It gives them a realizing sense that all wealth comes principally from the soil.

Cleaning Wash Wringers—Try a few drops of ammonia on a damp cloth, and see how nicely it cleanses the rubber rollers of your wash wringers.

rs of your wash wringers.

The whole English market dependent upon French and Spanish grapes and wines has risen. It is supposed that it will rise nearly 50 per cent.

Owing to the rot which has attacked the potato crop throughout France, it is estimated that the deficiency in the same will amount to 15,000,000 sacks. Tomato Butter—Seven pounds of ripe tomatoes, three pounds of light brown sugar, one cupful vinegar, stick cinna-mon; boil slowly five or six hours.

The Proof of the Pudding is in the Eating Grocerymen and storekeepers pay 3 to 5 cents a pound extra for butter made with country, reckoned at only five dollars per ten, is worth three times that of cotton, it is that of wool, and twice that of wheat.

To Crystallize Grasses—One pound best alum, powdered; half a gallon of soft water; boil until dissolved; dip the grass in the solution and allow it to remain six or seven hours; remove and dry in the sun.

Fruit Pudding—One

Fruit Pudding—One cup melasses, one cup sweet milk, one of suet, chopped fine, or a half cup butter, one of raisins, half cup currants, two and a half cup flour, half teappoon soda; mix well and spice to taste, and steam two hours.

Dried Apple Custard—One pint of dried apples, mashed and strained; two eggs beaten with the apples; sweeten and spice to taste; add a half tumbler of cream or rich milk. Bake in paste, and when done cover with a maringue.

rich milk. Bake in paste, and when done cover with a maringue.

Spiced Corn Beer—To 10 pounds beef take two cups salt, two cups molasses, two tablespoonfuls of pulverized salt-petre, one tablespoon ground pepper, one of cloves; rub well into the beef; turn every day; will be ready for use in ten days. Lemon Jumbles-One pound of flour

Auction Sale of Short-Horns,
The Hamilton's, of Mt. Sterling, Ky., together
with S. E. Ward and J. D. Duckworth, of Kansas City, and other prominent short-horn
breeders of Kentneky, Missouri and Kaness,
will have their fifth semi-annual sale of three
hundred and fifty head of short-horn cattle at
the Kanasa City Stock Yards, October 22nd to
25th inclusive. This magnificent herd consists of two hundred and twenty-five females
and one hundred and twenty-five females
and one hundred and twenty-five females
and one hundred show animals. There
will also be sold some other blooded stock of
unusual merit. one pound of sugar, five-eighths of a pound of butter, four eggs, the juice and grated intl of a lemon, and as little flour and lemon. nto small cakes with your hands. Bake will also be sold some other blooded stock of unusual merit.

The Messrs, Hamilton have secured reduced passage and freight rates on all the railread-icating into Kansas City and have otherwise done much to make this a pleasant and profit able meeting of the stock-growers of the West and everyone who is interested in the im-provement of stock should make it a point to be present.

reather Cake—One egg, one cup of sugar, one tablespoonful of butter, half a cup of milk, one and one-half cups of flour, one teaspoonful of cream of tartar, half a tablespoonful of soda. This combination makes a nice cake. Eat

eans in this country at the James River settlement in Virginia, in 1698. In 1699 more than forty acres were grown by the Virginia planters. Now the corn crop of the United States is one of the very first importance in agricultures Wheat is successfully cultivated in Mexico only on the table lands of the Cordillerers, at an elevation of from 2,650 to 2,950 feet above the level of the sea. In sections where it does not mature the

grain it is grown as a green soiling crop or torage for cattle, for which it is esteem-Corn meal Gruel-Take a pint of meal com mean Grael—Lake a pint of mean, pour over a quart of water, steep up, settle a moment and pour off, repeat three times; then pour over the washed meal about three quarts of cold water and let boil very slowly for two or three hours; thin with milk or cream and season with a lit-

tle salt.

A visitor to the hop districts of New fork writers to the Utica Herald that York writers to the Utica Herald that growers "would sooner allow their chickens to be killed than a skunk," since this useful creature, usually in such bad odor with most people, proves a very great help in the struggle against the grub which does so much injury to the vine.

The Weekly Toronto Globe says the golden drop wheat raised there is maurally a arrive wheat but that if can be lly a spring wheat, but that it can be rown successfully as a winter w. hat the grain is plump, and as larg he best samples of fall wheat; the st s particularly clean, and has not roubled with smut or rust.

The area of Ireland and the natural ealth of its soil is capable of supporting om 12,000,000 to 29,000,000 of inhabitfrom 12,000,000 to 20,000,000 of inhabit-ants if restrictive land laws did not over-ate against the full development of the country's resources and the unfet-tered cultivation of the land. Yet a pop-ulation of 8,000,000 previous to the year 1847 was reduced by death, starvation, and exile consequent upon an artificial famine and continued impoverishment, to little over 5,000,000 at the present day.

Prof A. S. Packard, Jr., mentions as an neresting fact that the Pueblo Indians of New Mexico have, like the Egyptians of old, long been in the habit of laying up itores of wheat and corn two or three years in advance. It is not certainly known whether they do this as a provision whether they do this as a provision walker it would at the rayage of the on against drought or the ravage ocusts; though from facts recently ob-ained, regarding the southern range of the locky Mountains locust in New Mexico, t would appear to be the last named.

Daring Outrage. rom the Kansas City Journal. One of the most daring outrage perpetrated upon the person of Mr. Robert iels, one of the oldest and most re spectable citizens of the county, at his esidence, four miles northeast of Independence, Mo. Thursday evening. Just at dusk Mr. Daniels was sitting on his porch, smoking his after supper pipe, when he saw two men enter the yard and walk taward the kitchen, Mr. Daniels went aroun. toward the kitchen. Ar. Daniels went around to where they were and asked their business, they replied that they were bungry and desired supper. Mr. Daniels told them that supper was over, and his wife was sick and unable to get any more at that time of night. At this the villians struck him a heavy blow on the head with a club felling him to the earth, after which they beat him terribly, gagged him with a handkerchief, and robbed him of about \$50 in money, a valuable gold watch and a pocket knife. They then turned and fied and as yet have not been heard of, although officers are on their track. Mr. Daniels' injuries, although not necessarily of a dangerous character. track. Mr. Daniels injuries, althous not necessarily of a dangerous characte are quite serious, and on account of I extreme old age will, in all probabili-keep him confined to his bed for sever weeks. This kind of business is beco-ming of frequent occurrence of late Jackson county.

Great Place for Wheat. "Let's see, they raise some wheat is Kansas, don't they?" asked a Schouarie granger of a Kansas man. "Raise wheat! Who raises wheat? No

"Do you ever soak it in water first?"
"Oh, no; that wouldn't do. It would swell a little, and then we couldn't get it in our range oven."
